## Automation

With our motorised curtain tracks, you can control all your curtains easily via a single remote control. Protect your curtains from damage and keep them perfectly aligned. The Merci curtain motor and track can be easily integrated with all types of curtains (traditional, wave or pleat). Our new range of motorised systems were developed to guarantee you a peacefully quiet home.

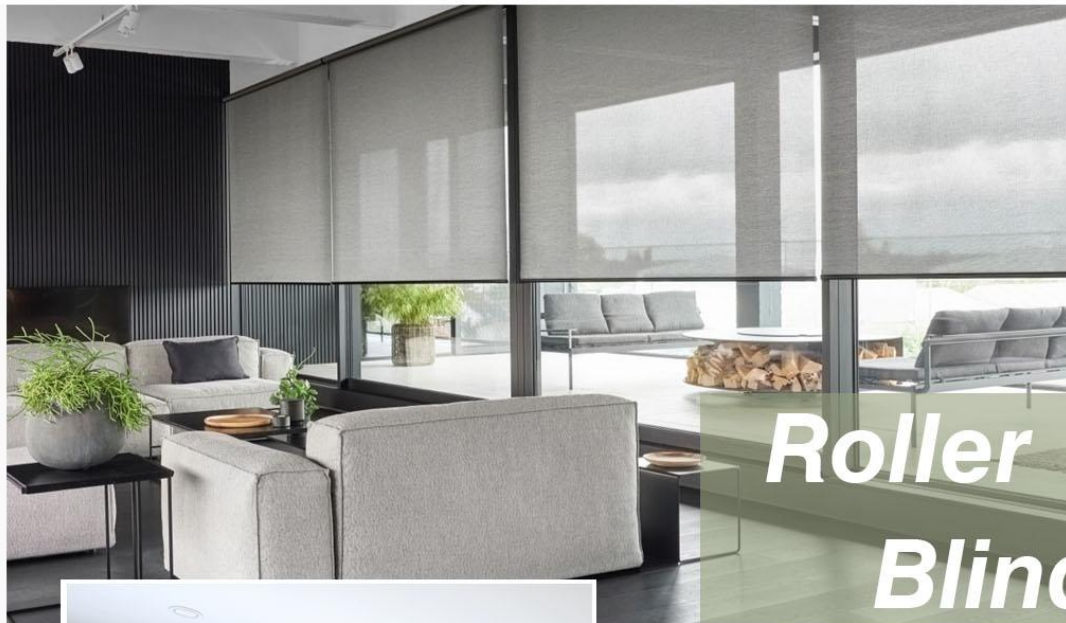

## *Curtains*

How would you like to greet the day?  
Imagine drawing aside your new,  
luxurious curtains and letting the  
golden morning sun filter in. Curtains  
add softness and texture to any room,  
as well as giving the space a  
beautiful, well-finished feel.

# Roller Blinds

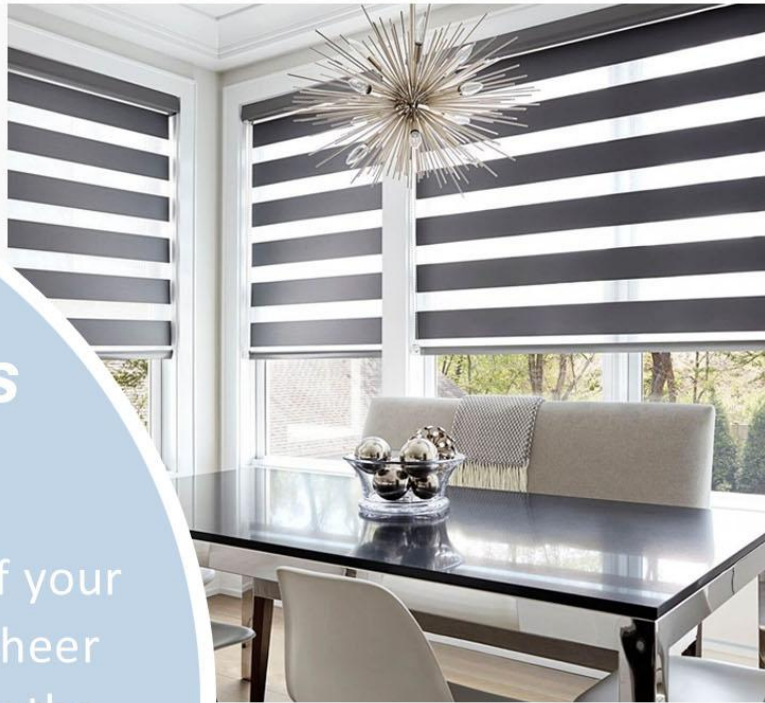

A huge range of colours and styles are available to choose from. Different fabrics suit different needs, from those that gently filter light through to room darkening fabrics. There's a Merci roller blind to suit every situation and every budget.

## *Zebra Blinds*

Your home is your showcase. Show off your unique taste with sheer zebra shades. Enjoy the ease of a roller with the look of a horizontal blind to add dimension and texture to windows

## *Shangri-La Blinds*

Sheer horizontal shades provide a modern look by combining the functionality of a blind with the beauty of a fabric shade. Sheer shades can be tilted to any angle, giving you control over the amount of light entering the room.

## *Roman Blinds*

- Provide a clear view when fully open mounted above window
- Total privacy when drawn
- Neat, simple lines to suit any décor
- Large range of fabrics
- Motorisation available

# Wooden Venetian Blinds

Both wood blinds and faux wood blinds are ideal for both formal and casual living spaces, and come in a range of attractive finishes. Enjoy the flexibility of soft diffused light during the day or partial blockout for a more significant reduction of light with added privacy and darkness.

## *Aluminium Blinds*

The aluminum blinds along with other metallic blinds have been around for a while, these are now more fashionable than ever.

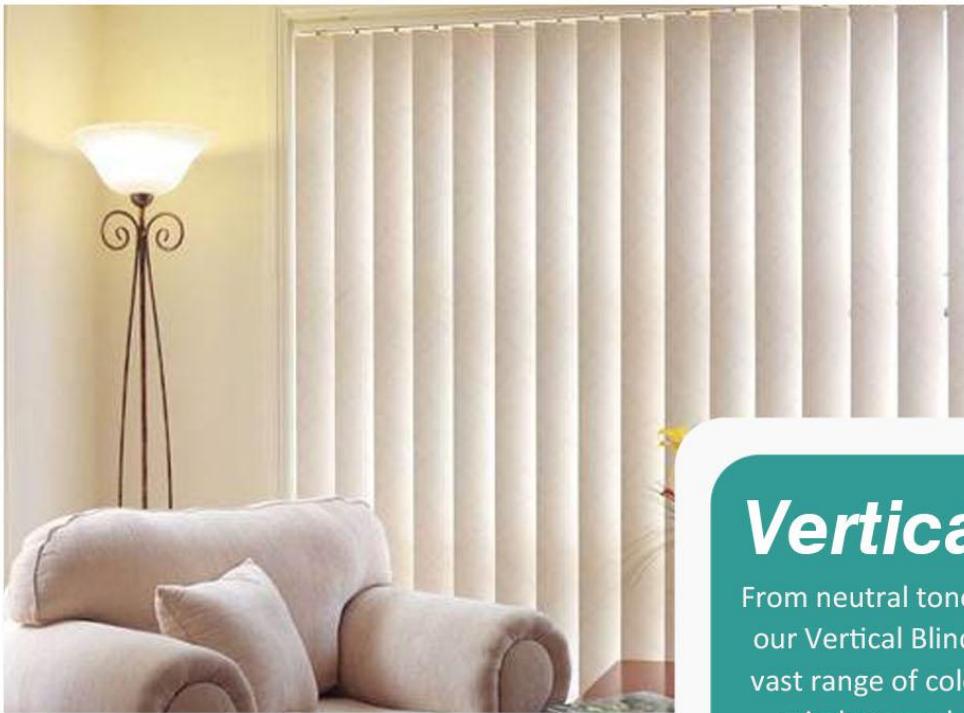

## ***Cellular Blinds***

Cellular Shades are beautiful and smart.  
They insulate your windows in the winter  
and keep the chills away.

In the summer, they block incoming heat to  
keep your home cool. Cellular shades block UV rays,  
protecting your furnishings from fading.

## ***Vertical Blinds***

From neutral tones to textured patterns, our Vertical Blind collection comes in a vast range of colours. Perfect for larger windows and patio doors, you can control the light with a simple twist and, with a blockout backing, enjoy beautiful shading when the sun gets too much. Our Vertical Blinds are stylish and smart.

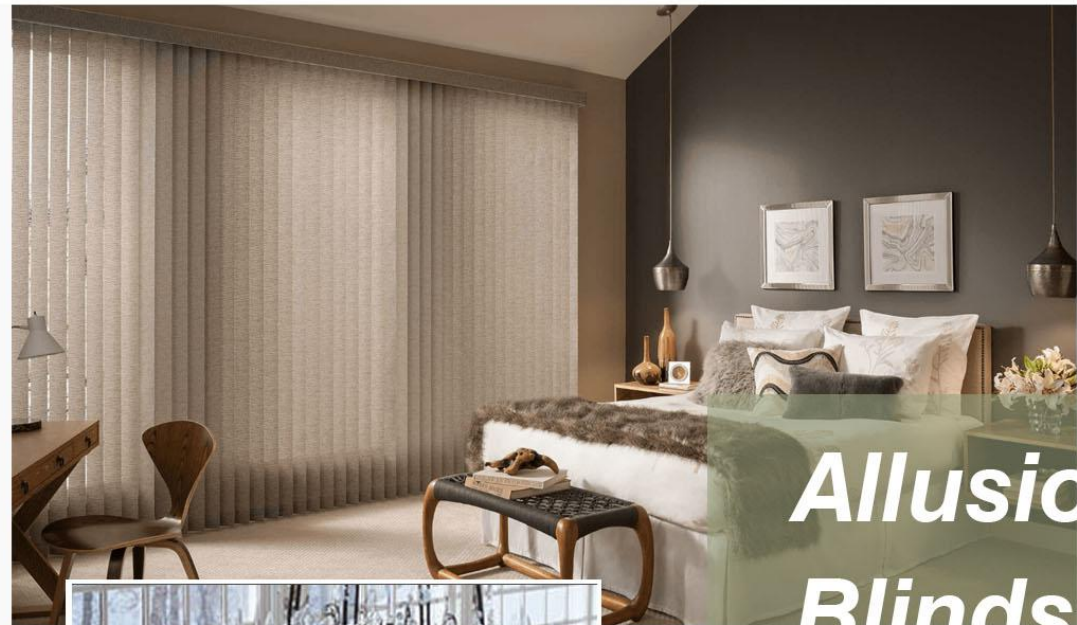

## ***Panel Blinds***

Panel Glide Blinds offer an alternative option to Vertical Blinds for doorways or large openings, creating a simplified look to compliment modern styling and decor.

# Allusion Blinds

Dress up your patio, sliding doors or large windows with sheer vertical blinds or shades, which seamlessly integrate fabric vanes into delicate layers of sheer fabric. These graceful blinds allow you to block light, or harness it to create beautiful warmth in the room.

## ***Plantation Shutters***

A solid and stable window covering usually consisting of a frame of vertical stiles and horizontal rails (top, centre and bottom). Controlling the amount of sunlight that enters a room, to provide privacy, security, to protect against weather or unwanted intrusion or damage and to enhance the aesthetics of a building.
